Stop press

The Gen. Comm. has approved a development project for the modernisation of the clubhouse with the following motion being passed.

Motion

“That the project, the project team and a sum of up to \$10,000 as described above be approved for the purpose of planning for the modernisation of the clubhouse and for the preparation of a schematic design and financial plan to be considered by the members for further development and implementation and this is to be funded by deferred items in the house budget.”

A copy of the briefing paper dated the 17th August 2011 is to be attached to club website and notice boards for member perusal.

The target is to have a concept plan and financial plan put together for the members approval at the November quarterly meeting.

Communication with members;
